Professional Summary

Full Stack Developer skilled in Python, JavaScript, React, Django, and FastAPI with knowledge of Generative AI and Cybersecurity. Experienced in building secure, scalable, and SEO-friendly web applications using modern technologies. Strong in API development, problem-solving, and performance optimization.

Skills

Programming Languages: Python, JavaScript
Frontend Technologies: React, HTML, CSS, Tailwind
Backend Technologies: Django, FastAPI, Node.js, Express.js,
Databases: PostgreSQL, MySQL, MongoDB
SEO & Digital Marketing: SEO, Keyword Research, On-Page SEO, Technical SEO, Google Analytics
AI/Gen AI: OpenAI API, Prompt Engineering, LangChain (Basics)
Cybersecurity: SQL Injection, XSS Prevention, JWT Auth, Network Basics
Tools: Git, GitHub, Postman

Projects

Incentive Claim Verification Portal | React, FastAPI (Institute Project) *Feb 2026 – Present (Ongoing)*
Tech Stack: React.js, Tailwind CSS, FastAPI, PostgreSQL, JWT, OAuth

- Developed an SEO-friendly and secure incentive claim portal with multi-level verification workflow for faculty approvals.
- Built scalable application handling 20,000+ submissions with document upload and PostgreSQL database integration.
- Implemented real-time notifications, approval dashboard, and audit logs to improve transparency and workflow tracking.
- Secured REST APIs using JWT with role-based access control and protected endpoints.
- Optimized backend performance, responsive UI, and user experience for efficient web application management.

Student Result Management System | Django *Dec 2025 – Jan 2026*
Tech Stack: Python, Django, HTML5, CSS3, SQLite
Live Demo: <https://srm-4d9t.onrender.com/>

- Developed a responsive and SEO-optimized Django-based result portal used by 100+ students.
- Reduced manual result processing time by 70% through automated student and result management.
- Implemented secure authentication, relational database integration, and efficient backend architecture.
- Deployed and maintained the application on Render ensuring stable hosting and cross-device compatibility.

Education

B.Tech in Computer Science *Aug 2023 – Present | CGPA: 8.91*
S.B. Jain Institute of Technology, Management & Research Nagpur
Higher Secondary (XII) *Feb 2022 – Feb 2023 | 65.80%*
St. George Jr. College, Nagpur
Secondary School (X) *Mar 2021 | 80.83%*
New English High School, Nagpur

Certifications: [DSA \(Python\)](#) | [Web Dev](#) | [Programming in Java](#) | [Python Full Stack \(EduSkills\)](#)

Extracurricular Activities

- AlgoZenith SBJIT Club (2024–2025)** — member; competitive programming & DSA problem solving.
- National Service Scheme (NSS) (2024–2025)** — Volunteer; community outreach & student workshops.

Achievements

- Achieved **2nd Runner-Up** position at **HackWack 3.0**, a national-level hackathon, by developing an innovative technical solution in a team-based competitive environment.
